Kuznetsov, V. I.
ON THE PRECIPITATION OF TIN WITH PHENYL-
ARSONIC ACID (Ob Osazhdenii Olova Fenilarsonovoy
Kislotoy). [1960] 16p. (foreign text included) 9 refs.
Order from LC or SLA ml\$2.40, ph\$3.30
UCRL Trans-572(L)

Trans. of Zhurnal Prikladnoy Khimii (USSR) 1940,
v. 13, no. 10, p. 1512-1516.

A study of the relation of solutions of α - and β -com-
pounds of tetravalent tin to phenylarsonic acid showed
that ordinary α -compounds of tetravalent tin are pre-
cipitated with phenylarsonic acid considerably worse
than β -compounds. Results indicate that in the pre-
cipitation of tetravalent tin with phenylarsonic acid,
it is necessary to have tin in the form of a chloride
of metastannic acid.

(Metallurgy--Nonferrous Metals, TT, v. 5, no. 6)
